

Apprenticeships

Level 3 Senior Healthcare Support Worker

Course Overview

Senior Healthcare Support Workers help registered practitioners deliver healthcare services to people. As an experienced support worker, you carry out a range of clinical and non-clinical healthcare or therapeutic tasks, under the direct or indirect supervision of the registered healthcare practitioner, providing high quality, compassionate healthcare.

What will I learn?

The main focus of the learning is being able to put learning into practice back in the workplace. This Apprenticeship will focus on six core areas including; Health and wellbeing, Duty of care and candour, safeguarding, equality and diversity, Person centred care, treatment and support, Communication, Personal, people and quality improvement and Health, safety and security.

How will I be taught?

A variety of interactive learning methods are used including discussion, group work, reflection, clinical scenarios, workshops, peer learning, e-learning and simulation. The flipped classroom model will be used in which some pre-work may be completed before attending the sessions, allowing you to absorb the themes at your own pace.

What can I do next?

After a period of working and gaining experience, you may be able to work towards an Assistant Practitioner or Nursing Associate post or, providing you meet the entry requirements, apply to university to become a registered healthcare practitioner.

Course Title: Level 3 Senior Healthcare Support Worker

Course Duration
12 – 18 months

Entry Requirements

Candidates must have formal experience of work as a Healthcare Support Worker to come on the programme and will be expected to have Level 2 English and Maths or a willingness to work towards achieving them. The learner must be working in a role where they are able to demonstrate the skills and knowledge obtained and put into practice within their role. You must also complete an induction which meets the 15 standards as set out in the Care Certificate
