

Surgical Simulation Training

NOTSS: Non-technical Skills for Surgeons – RCS Franchised

The RCSEd Non-Technical Skills for Surgeons (NOTSS) Course is a one-day course aimed at surgeons across all specialties.

The course examines the non-technical skills which underpin good operative performance.

The courses will be face to face course at the Chorley Hospital Education Centre 3.

There will be a variety of teaching methods and will be employed including small group work and simulated scenarios.

As part of the school of surgery's commitment to develop and embed human factors / non-technical skills

training in the education programmes and the workplace, all ST3s are required to complete a non-technical skill for surgeons (NOTSS) course.

To develop faculty for these courses as well as enhance the HFs / non-technical skills teaching being delivered across all the programmes we are running two courses for consultants (&SAS doctors) only in addition to offering trainee course places to ST8 trainees.

For further information on RCSEd NOTSS, please see <https://www.rcsed.ac.uk/events-courses/non-technical-skills-for-surgeons-notss>
