Searching the Catalogue

You can use the library catalogue to search for books, eBooks, DVDS held at Royal Preston and Chorley hospital libraries.

Enter your **keywords** here and click '**Search**'.

The screenshot shows the 'Search library catalogue' interface. It features a search bar with the text 'diabetes' entered. To the left is a dropdown menu for 'Search in' with options like 'All fields', 'Authors', 'Abstract', etc. To the right is a 'Media type' dropdown menu with options like 'Audio', 'Book', 'CD (audio)'. Below the search bar is a 'Search' button and a 'Clear' button. A list of search results is visible below, including 'listing of all subjects used on the catalogue' and 'renewals and returns for today (so far)'.

You can choose to search a **specific field**, e.g. Author, Title, ISBN.

This will narrow your search results.

If you specifically want to find a CD, DVD or eBook you can narrow your search using the '**Media Type**' option.

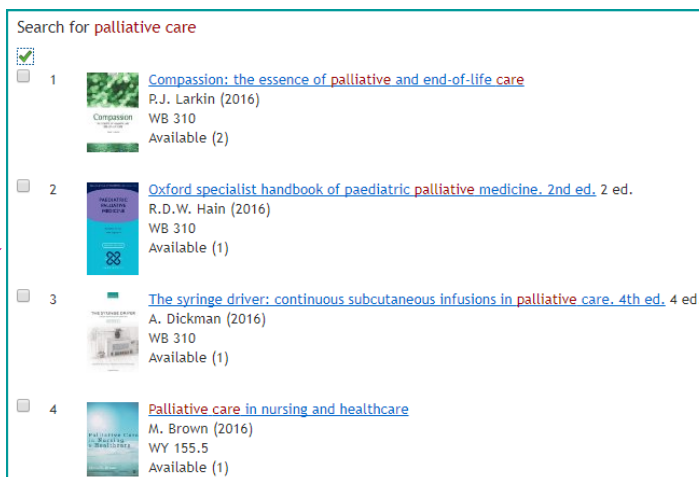

PLEASE NOTE: it searches 'all media' types by default. To specifically search for books, select 'text'.

Search Results

After entering your **keywords** and clicking the **search** button, a list of **results** will be displayed, with the most recently published showing first.

Each item in the results will display the:

- Title
- Author
- Publication date
- Shelf mark (e.g. WB 310)
- Availability

To view further information on an item, click on the **title**. A new screen will appear.

The **'Standard no'** is the ISBN of the item.

You can **reserve items** online, see guide *'Reserving library books'* for more info.

The **'Medium'** tells you what the item is, e.g. 'text' for book.

The **'Class' no.** tells you where the book is located on the shelves, e.g. WY 155.5
