

Find Journal Articles Quickly

NHS Knowledge and Library Hub

<https://library.nhs.uk/lhtr>

Search journal articles, and clinical decision tools, **all in one place**.

Go directly to full text, as an immediate download or on request from an NHS library.

Avoid the less-reliable sources you might find in a general web search.

Go to: <https://library.nhs.uk/lhtr>

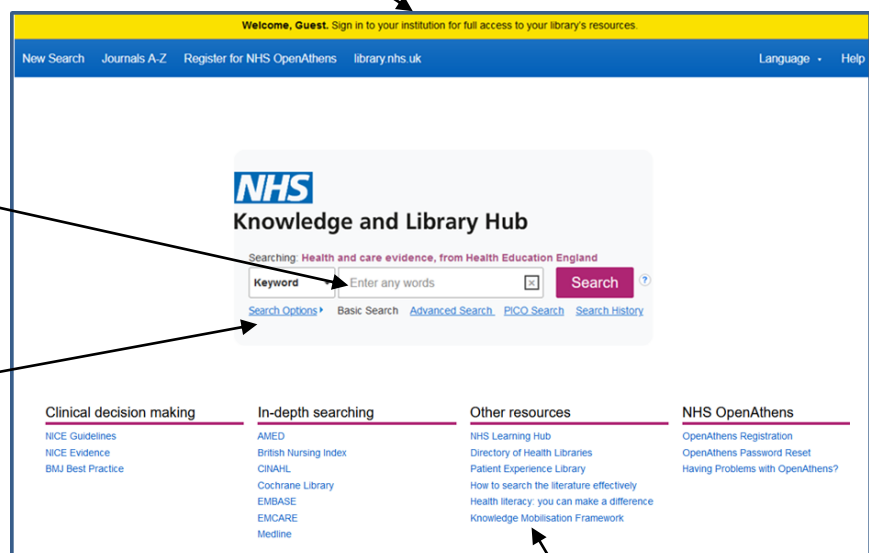

Click the text on the yellow bar to log in with your NHS OpenAthens account.

This lets you see the full text of all the resources NHS libraries buy for you. **IMPORTANT: If you are working from a Trust device you will see all the resources without having to login via the yellow bar.**

Type your search words in the box and click Search. You can search for a topic, a journal article or journal title

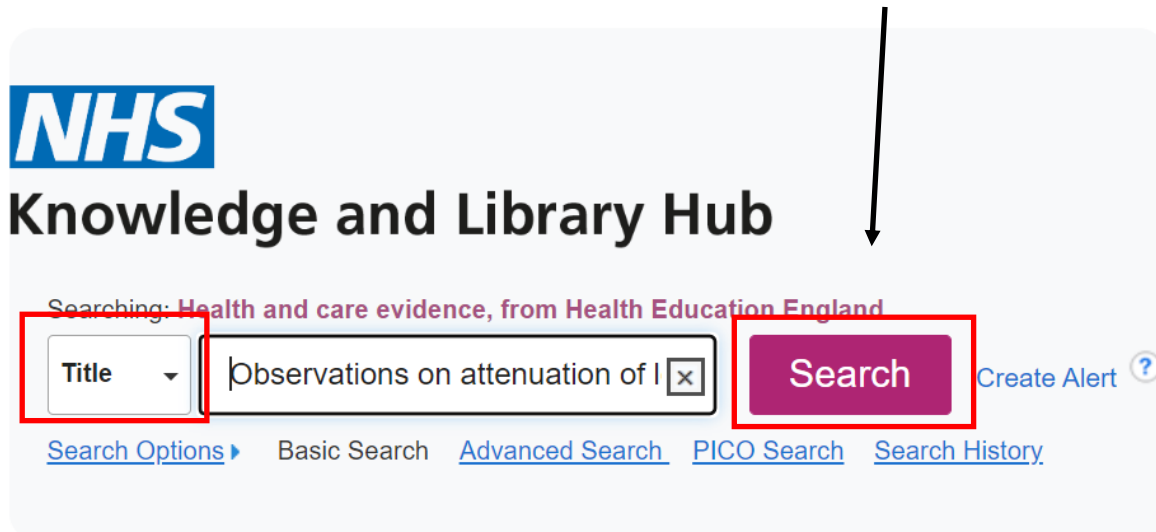

You will see results which contain all your search words.

The search options let you choose alternative ways to search.

Go directly to other resources when you know what you need. Do a detailed search or explore a specific resource from the links below the search box

If there is a specific article you want to find then choose the **Title** field and paste the title of the article into the search box. Click **Search**.

If your search returns the article, you should be given several options for accessing the article.

Observations on **Attenuation** of **Local** Electrogram Amplitude and Circuit Impedance During Atrial Radiofrequency Ablation: An In vivo Investigation Using a Novel Direct Endocardial Visualization Catheter

Academic Journal
